

B1

IN THE ABSTRACT:

Please replace the Abstract with the following:

--A superconducting wire which is a fine line made of an oxide superconductor which has a metal material dispersed therein, the outer periphery of the oxide superconductor being coated with a conductive material.

IN THE TITLE:

Please amend the Title to read:

-- OXIDE SUPERCONDUCTING WIRE WITH SILVER DISPERSED WITHIN AND A CONDUCTIVE COATING ON ITS SURFACE--.

IN THE SPECIFICATION:

Page 7, line 19, "enabling" should read

--forming--;

line 20, "featuring" should read --having--;

line 21, delete "to be achieved".

Page 8, line 8, "will do" should read --may be used--.

Page 10, line 19, "gains" should read --grains--.

Page 16, line 25, "extremely smaller" should read --significantly lower--.

Page 27, line 12, "extremely smaller" should read --significantly lower--.
